

Summary

Full Stack Developer with hands-on experience in building scalable MERN stack applications using React.js, TypeScript, Node.js, Express, and MongoDB. Strong understanding of RESTful API development, authentication using JWT, database schema design and responsive UI development with Tailwind CSS. Experienced in applying Atomic Design and SOLID principles to reusable components.

Skills

- Frontend (HTML , CSS , JavaScript , TypeScript , Tailwind CSS , Bootstrap , React.js , Next.js)
- Backend (Express.js, Node.js)
- Database (MongoDB , PostgreSQL)
- Tools & Software (Git , Github , Postman , VS Code)
- Design Patterns (Atomic design System, Micro frontend , SOLID Principles, Micro Services)
- Testing (Manual Testing , Jest)
- Backend Concepts (Middleware, RBAC, Pagination)
- React-Modules (Zustand, Zod, React hook form)

Projects

END-TO-END MOVIE TICKET BOOKING PLATFORM – Personal Project – Cuddalore April 2025

- Utilized **React.js**, **Node.js**, **Express.js** and **MongoDB** to develop a scalable movie ticket booking platform with JWT-based authentication and role-based access control.
- Designed and implemented RESTful APIs to manage movies, show schedules, seat availability, and booking operations using Express.js and MongoDB.
- Optimized the booking workflow by automating ticket reservation and payment processes, reducing manual operations by 40% and improving user experience.

RESTFUL MERN ECOMMERCE APPLICATION WITH ADMIN DASHBOARD – Personal Project – Cuddalore August 2025

- Developed a scalable eCommerce platform using **React.js**, **Node.js**, **Express.js**, **MongoDB** and **TypeScript** with an admin dashboard for product and order management.
- Enhanced application performance using **React.memo**, **Zustand**, image compression, WebP optimization, and SOLID-based backend architecture.
- Implemented code splitting, lazy loading, and dynamic imports in React, reducing initial page load time by 30%.
- Optimized MongoDB queries through indexing, pagination, and filtering, reducing API response time by 40%.

Work Experience

JUNIOR WEB DEVELOPER – NaNlogical Consultancy Services Pvt. Ltd – Chennai January 2025 - March 2025

- Developed a Trainer Management System using **React.js**, **Node.js**, **Express.js** and **MongoDB** to manage trainer profiles, skills, and experience details.
- Implemented **CRUD** functionality for trainer and designation management, supporting roles such as HR, Manager and Developers.
- Applied Atomic Design principles to build reusable and scalable React components, improving UI maintainability and consistency.

JUNIOR FULL STACK DEVELOPER – Avenstek Solutions Pvt. Ltd – Chennai December 2025 - April 2026

- Developed 20+ REST APIs for product, order, category, and user management modules using **React.js**, **Node.js**, **Express.js**, **MongoDB** and **TypeScript**.
- Built secure REST APIs with **JWT Authentication** and **Role-Based Access Control (RBAC)** for users and administrators.
- Integrated **Razorpay Payment Gateway** with payment verification, order management, and transaction handling functionalities.
- Applied **SOLID Principles**, **Atomic Design** and MongoDB optimizations to improve application scalability and performance.

Education

B.E IN COMPUTER SCIENCE AND ENGINEERING (CGPA: 8.87) – IFET College of Engineering – Gangarampalayam June 2026
